METALLIC

Global Garage Flooring Metallics system is a deep color product that incorporates varied and intense colors for those who truly desire a different and beautiful concrete floor.

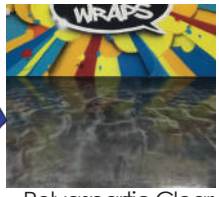

This flooring system is for those looking to stand out and create a unique, one-of-a-kind floor that is beautiful yet durable and virtually maintenance-free.

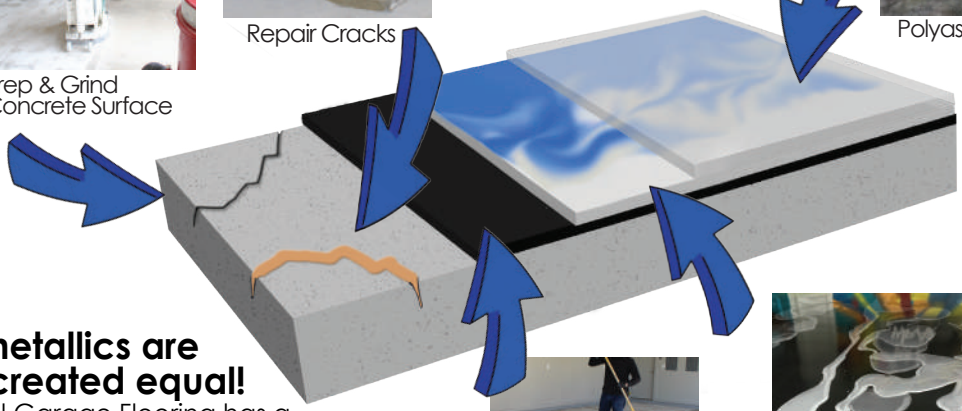

Prep & Grind Concrete Surface

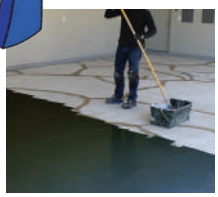

Repair Cracks

Polyaspartic Clear or Urethane Top Layer

Tinted Base Layer

Apply Metallic tinted coating. 2 Colors mix to make 1 layer

All metallics are not created equal!

Global Garage Flooring has a large, intense color pallette. Our system and installation process results in a highly durable yet aesthetically appealing concrete floor finish.

Our coating systems are the finest on the market and will make your space a pleasure to be in for a lifetime. Most jobs are installed in just two days and you'll be walking on it the third.
